

I wrote this copy for Jennifer's About Us page on her website which is www.PearStreetStudios.com

Hi, I'm Jennifer Froh, the founder of Pear Street Studio. If you've been seeking the "pear-fect" marketing presence and image for your business, both online and off, you've come to the right place!

I've had a long term passion for graphic design and the internet, and as a full-service or "studio" graphic and web design company, we love to artfully capture the special essence of what your business distinctly offers your clients through our customized logos, graphic design, website/blog design, ad design, and printed marketing materials.

Like many of my clients who work from home, I work from my home "studio" in Flower Mound, TX, where I am most productive and happiest being around my family: my husband Steve, my three sons, and my menagerie of five furry friends! My brother, Craig, who has a degree in computer science and lives in Chicago, is also a valuable part of the "team" known as Pear Street Studios.
